The VR/AR Association (**VRARA**) is the global industry association for virtual reality & augmented reality, connecting leading solution providers with brands and customers.

4000+ Companies

50+ Chapters

20+ Committees

Research & Events

Overview

- Immersive Technology Overview
 Where we are, how we got here and where we are going
- Impact on Readiness
 Immersive technology intelligently and autonomously generates readiness for the individual, but at global scale
- The Future, Now
 Adjust the strategic approach to immersive technology so that we can realize a future, today

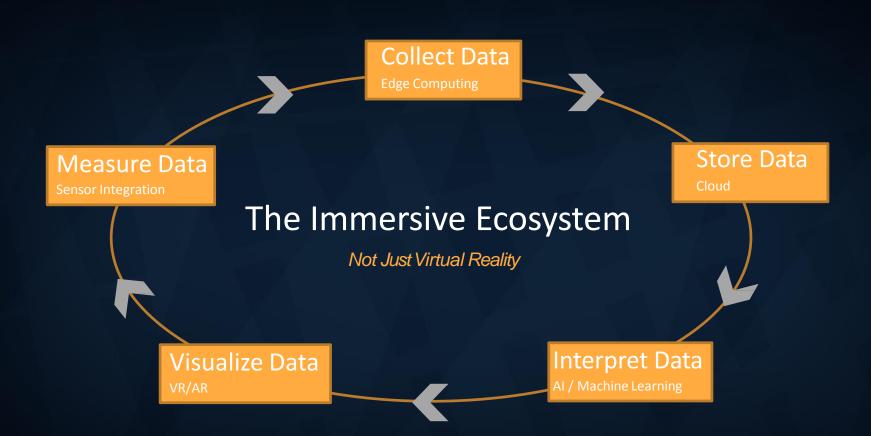

Answer to Readiness

Readiness: creating the ability tor the individual to build confidence despite chaos in any circumstance

- More rapidly obtain contextual awareness and measured preparedness for any circumstance
- Important to be aware of physiological conditioning, accuracy, decision making, and an overall stable cognitive status

The Future, Now

- Computing process has evolved
- In order to grow larger, we have to find ways to grow smaller
 - Increased personalization directly leads to the increase in global scalability
- Build an immersive technology ecosystem that intelligently addresses readiness

Thank You!
